25X1

1. During the period from 20 June to 11 July 1952, the barracks installations on Sundhausener Strasse, Gotha (M 51/J 06), quartered about 500 troops who wore black-bordered crimson epaulets and were equipped with submachine guns, machine guns and 50-mm mortars. The unit was engaged in combat training daily, with groups up to 100 men being seen in the training area on Am Krahnberg. \*

\* Comment. According to service color and equipment with 50-mm caliber weapons, the unit observed is believed to be an element of the 172d Gds Mtz Rifle Regt of the 57th Gds Mtz Rifle Div there. According to periodic reports, it appears that a large part of the regiment is at the installation most of the time, while some elements are detached for border guard duty.
